

Lucellino Wall
INGO MAURER 1992/2017/2022

The wall lamp Lucellino Wall is an Ingo Maurer classic. The light bulb with little wings absolutely embodies the characteristics that define Ingo Maurer: Poetry, humour and technology and illuminates every room with charm. The light source of the Lucellino Wall is completely new; the Ambient light source. The in-house developed lamp is the modern alternative to the halogen lamp: Ambient is very similar to the light quality of a halogen lamp. Lucellino Wall is now available with the wonderful dim-to-warm Ambient lamp.

Light source

With light source Ambient 12 V AC, 5 W, LED, 380 lm, 2000-2700 K, 15000 h, CRI >90, EEC G (A-G), dim-to-warm. Infinitely dimmable. The Ambient lamp is manufactured exclusively for Ingo Maurer.
