BULB SPECIFICATIONS

G9 3.5W LED bulb 330 lm / 2700K

PRODUCT SPECIFICATIONS

Input voltage: 120V / 240V Maximum wattage: 40W 120V / 240V dimmable LED triac Product weight: 2.5 kg IP20

Please supply required drop length of fixture, measured from the ceiling to bottom fitting at time of order.

Minimum total drop length 240V: 260mm. Maximum total drop length 240V: 2180mm.

Minimum total drop length 120V: 260mm. Maximum total drop length 120V: 2175mm.

Please allow 25mm tolerance of drop length.

CLEANING INSTRUCTIONS

Before cleaning, lighting fixtures must be turned off and unplugged from mains electricity. Whilst cleaning please take care and use the gloves provided.

Polished Brass: As the item is unlacquered it will naturally oxidise and darken. Upon touching the items without gloves, fingerprints are likely to occur and leave marks. Use a good quality brass cleaning liquid and follow the product instructions using the extra soft dust cloth. Do not apply pressure on persistent marks. Remove them using repeated gentle motions and by reapplying the brass cleaning liquid.

Plated Finish: Use a lightly damp soft dust cloth and gently go over marks until clean. Dry it afterwards with a soft dust cloth.

Patinated Finish: Use a dry soft dust cloth and gently go over marks until clean. The brass patina is achieved through an artisanal technique of applying pigments by hand during a hot patination process. Through this alchemic process, the brass is transformed whilst retaining the material's inherent qualities. It will mature and change overtime. The manner and speed in which it will change will depend on the environment, handling and the level and frequency of maintenance. Verdigris can also appear when the copper in the brass begins to oxidise.

Opaline Glass: Remove the opaline glass from the product. Using a lightly damp cloth, clean only the outside of the sphere. Only put the glass sphere back on the product once it is fully dry.

Michael Anastassiades' design philosophy is to preserve the inherent qualities of given materials. All of our products are handmade and come in natural finishes, exposed to the elements without any protective lacquers. We look at oxidisation as part of a process that adds to the patina of an object, increasing beauty with time. We try our best for all goods to leave our premises in prisine condition, but sometimes products may arrive with minor oxidisation marks. Whilst every effort is made to ensure an accurate representation of product colours, finishes and dimensions, Michael Anastassidaes Ltd centre and exerves the right to alter these details without notic, in compliance with lis own production needs, technological changes or in response to the current market needs. Colour swatches are for preference only; Michael Anastassidaes Ltd cannot guarantee exact colour match for any product finishes. All designs are protected under copyright law. Michael Anastassiades holds the exclusive manufacturing and distribution rights worldwide. Copying will be prosecuted.
