# MELT SURFACE MINI LED

OFF

ON

Melt is evocative of molten glass, the interior of a melting glacier or images of deep space. An imperfect, organic and naturalistic light that produces a mesmerizing hot-blown glass eŸect. Melt is created through a process of blow moulding and vacuum metallisation to achieve melted orbs with abundant and unusual luminosity that reŽects and enhances its environment.

MELT SURFACE MINI OPAL LED

OFF

ON

Melt is a beautifully distorted surface light now available in a new tinted white opalescent finish. By retaining Melt's organic form, we have created an opal version, which boosts its luminosity. To complement our range of metallic shades, we've introduced Opal as an alternative finish for interiors that have a more monochromatic style. Semi translucent, it maintains an ethereal ghostliness in the daylight and at night forms a perfectly illuminated orb.
