

Description

Modern yet timeless. Extravagant in its style and use of clean geometric forms. Inspired by architecture. The Overlay collection arose from a synthesis of various materials on mood boards during a creative process that involved seeking ideas and associations between art and design, overlaying different textures, and playing with volumes. The blown transparent glass tubes instil the Overlay collection with a distinctive character, as does the unique concrete fixture embedded with shards of upcycled glass from Janštejn Glassworks.

Tech. description

The light comprises a glass tube, concrete fixture with an S14d socket, and a concrete ceiling canopy. The lower part of the light is suspended from two wire ropes anchored in the ceiling canopy. The concrete elements contain a high proportion of glass shards from Janštejn Glassworks.
