Description

The dominant feature of the Prisma collection is an extravagant metal fixture with a distinctive finish. Classic handblown glass spheres are anchored to either one or both ends of a robust decagonal metal prism that lends the collection its name. The shape in combination with the striking surface reflect light at different and unexpected angles, like a prism. With a choice of three different elegant finishes – brushed steel, galvanized yellow zinc gloss, or galvanized yellow zinc matte – the light is a bold artistic object in the interior offering unique vertical, horizontal, and diagonal compositions with subtle colourful reflections. The collection consists of a horizontal pendant light with two dual glass spheres and a vertical pendant light with a single glass sphere, both of which hang from wire ropes. Another typological variant is an impressive floor light, a majestic light sculpture in the form of a robust upright decagon topped with a luminous glass sphere.

Tech. description

The light comes in horizontal and vertical variants. The horizontal variant features dual LED modules with diffusers and glass shades. The vertical variant is fitted to the bottom of a metal fixture. The electronics are concealed within the ceiling canopy.

CONSTRUCTION SPECIFICATION

Weight: 6 kg
Construction material: glass, metal
Cord length [mm]: 2,200 mm
Mounting: Ceiling
Environment: Indoor

DIMENSIONS [mm]

ELECTRICAL SPECIFICATION

Input voltage [V]: 100 - 240 V
Frequency [Hz]: 50-60 Hz
Max. power [W]: 12 W
Coverage IP: 20
Socket: LED module
Light source: -
Energy class: E
