The Cirio Chandelier pools a large body of light onto a focal axis that stands out hugely from its surrounding area. Its dense array of concentric rings, from which twenty, thirty and even forty light sources may be hung thanks to the enlargeable diameter of the structure, gives off a warm, powerful light with a major visual impact.

The shade, beautifully designed, is reminiscent of a candle for its shape, texture and the warmth of its light. The varying shades combined with LED capsules can be used to create different atmospheres: from the porcelain of Sargadelos (Galicia, Spain) that creates candle-like warmth, to translucent opal glass, and the opaque elegance of brass.

Cirio is a system that provides customisable solutions for vertical lighting by combining structures, shades and light textures. The pendant lamp can be used alone or arranged in rows or clusters to illuminate larger areas, in forms such as the Chandelier, Cascada, Circular, Linear, Oval or Múltiple. A perfect combination of repeated elements. The fusion of technology and tradition; innovation through craftsmanship. A truly unique lighting experience.
